

Application Data Sheet

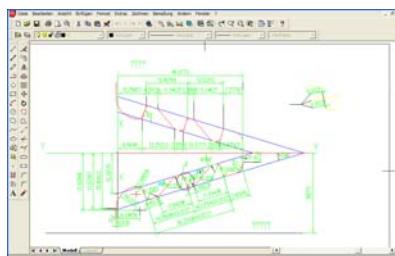

Christmas Tree Cutter

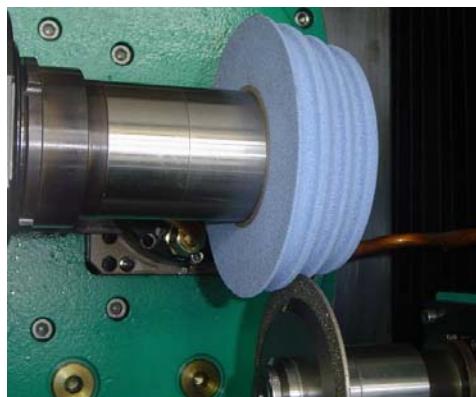

Christmas Tree are tools with very tight accuracies. No problem for our high precision grinding machines. There are two tips of *Christmas Tree*: Either with radial relieve or with clearance surface. Both can be produced or reshaped on Schneeberger Grinding machines.

Christmas Tree in production

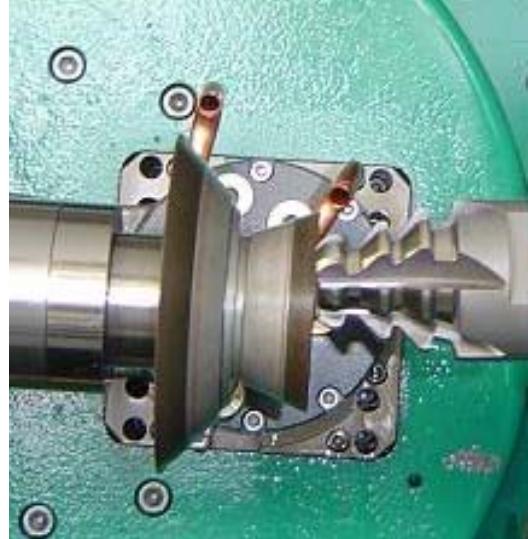

First Step: Transfer the Technical Details to Quinto Software and define all relevant parameters

Second Step: Dressing the Wheel with a easy to use Software integrated in Quinto

Third Step: End Operation

Forth Step: Flute Operation

Fifth Step: Profile, Radial Relieve
